HINT OF THE MONTH

STITCH GAUGE

The importance of stitch gauge cannot be stressed enough to the beginner as well as the advanced knitter. Correct stitch gauge is the "proof of the pudding". If the given gauge is followed, the result is a perfect garment in the size that is desired; if not you have an ill-fitting one which is not desirable.

After selecting the style and the specified yarn is purchased you are *not* quite ready to start your garment. You must remember that every knitter is an "individualist". Some knitters work looser or tighter than others. The needles specified in directions only tell you what needles were used to make the original garment pictured. The knitter who made the garment used the size specified to arrive at the given gauge, therefore, you too, must change your needles, regardless of size until you arrive at the same gauge.

Make a swatch on a small amount of stitches. If you work tighter, try a larger needle; if you work looser try a smaller needle.

When the swatch test is complete, that is, that you have found the needle you can work with to obtain the given gauge, you are now ready to start your garment.

After your garment is complete and you try it on, you will see that the time spent on stitch gauge was well worth it.

ABBREVIATIONS

k — knit

p — purl

st. (sts.) — stitch (stitches)

tog. — together

inc. — increase — k 1 in front of st., hold on needle, k 1 in back of same st., slip loop off left hand needle.

dec. — decrease — k 2 sts. tog. by inserting needle into two sts. at a time instead of one.

sl. — slip — take a st. or sts. from one needle to the other without knitting, by inserting needle as if to k, unless otherwise stated.

p s s o — pass slip st. over — pick up the slipped st. with left hand needle from right hand needle as to p unless otherwise directed and pull over the st. or sts. in front of the slip st.

y o — yarn over — means to throw the yarn over the right hand needle, which is another way of increasing a st.

rnd. — round

m. c. — main color

c. c. — contrasting color

* — asterisk — indicates that the directions immediately following are to be repeated the given number of times, in addition to the original. Thus "repeat from * 3 times" means to make 4 times in all.

d. p. — double point

beg. — beginning

ch. — chain

s. c. — single crochet

s. d. c. — short double crochet

h. d. c. — half double crochet

d. c. — double crochet

tr. — treble crochet

HINT OF THE MONTH

LAUNDERING OF HANDKNITS . . . .

Take complete measurements of garment by placing it on a piece of paper and drawing an outline of same.

Use a mild detergent such as "BOTANY" Brand Dunk in lukewarm water. Immerse article and gently work suds through it. Do not rub or twist. Squeeze water out of garment — do not wring.

Rinse thoroughly in same manner as in the washing process.

Roll article in a towel to remove excess moisture. Spread out on a dry towel on a flat surface, shaping exactly to the original measurements. Let it dry slowly. Do not dry on radiators or any other artificial heat.

DO YOU KNOW?

THAT, one of the reasons we love to wear wool knitwear is because of the nature of the wool itself, which is so absorbent and porous that it prevents chills from sudden changes in temperature.

THAT, it is important to learn to relax whenever you pick up your knitting. If you are in a tense mood your work will be done more tightly and will give an uneven appearance to the finished garment.

THAT, there are hundreds of other designs featuring "BOTANY" BRAND NO-DYE-LOT YARNS. To see them all, ask the sales clerk at your favorite yarn shop to show you the full selection of BOTANY KNITTING BOOKS.

THAT, in the daily care of knitwear, garments should be placed flat in a drawer, or folded over, either lengthwise or crosswise, with no more than two folds and the sleeves carefully placed.

THAT, moths breed in heated homes all year round, and are as destructive in Winter as in Summer? The best thing you can do to protect your wool garments is to examine them frequently, brush them thoroughly and sprinkle them with paradichlorobenzene crystals.

THAT, in making knitted garments, it is important for style and fit, to use the brand of wools designated in the directions and to check your gauge before starting the work.

THAT, before washing knitted sweaters or dresses, it is an excellent idea to sew a piece of tape around the neckline to prevent stretching.

THAT, women by the thousands are taking up the handcrafts of knitting and crocheting to increase the tranquility of their homes. Steady hands mean steady nerves.

THAT, we like to hear about what you like to hear about — what you approve of — or what you would like to see more of, in the "'BOTANY' MODEL OF THE MONTH" as well as in the BOTANY KNITTING BOOKS. Write us your suggestions, won't you?

THAT, a lot of men knit? One man we know took a goodly supply of knitting needles, instruction booklets and "BOTANY" BRAND NO-DYE-LOT YARNS with him when he was sent over seas during the war. Knitting was only a hobby with him then, but now he runs a thriving yarn shop in one of the southern states.

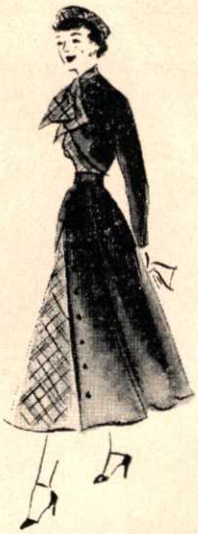
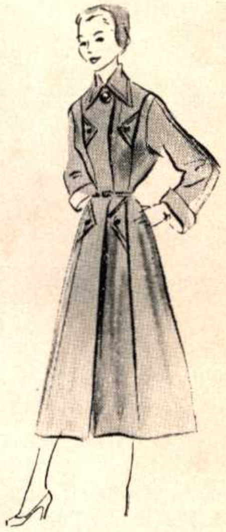
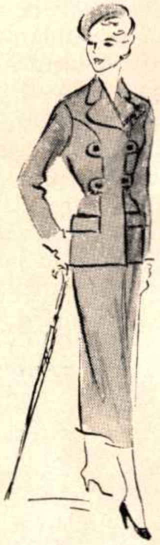
BOTANY SEWING BRIEFS



Have you noticed the beautifully casual appearance of Fall clothes? The smart new suits are definitely not "man-tailored", but they do have an easy-to-wear look without the dressy frills and trimmings that have been prevalent in the past few seasons. It is only natural then, that fine fabrics will be more important than ever.



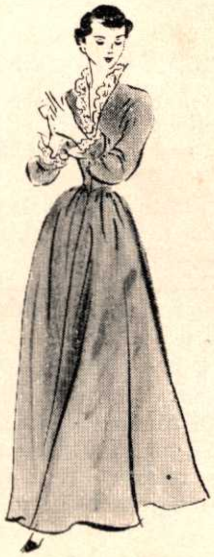
Two tones of one color on a suit or dress are an important style carry-over. This combination is never better than when harmonizing hues of Reedston are used. Reedston is the Botany* yarn-dyed, all-worsted flannel that tailors with such ease. Or for even more exciting duos, use Reedston with one of Botany's Tailorettes,* a mannish type worsted suiting in pin-checks or glen-plaids.



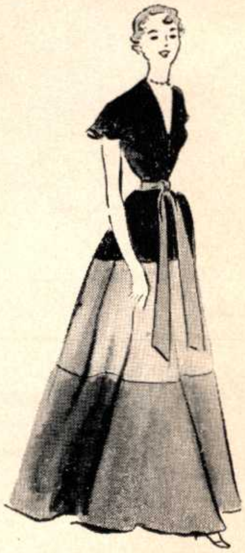
To appreciate the full beauty of the new Fall fabrics, careful cutting is a must. And don't overlook such important details as perfect fit and impeccable finishing. To aid you, Rayola linings in three types; satin, crepe and twill, have been dyed to perfectly match Botany wool fabrics. For closures there are Waldes Kohinoor zippers, and tasteful La Mode buttons also in coordinating tones and complementing styles.

And speaking of buttons; don't minimize the important couturier look that buttons give—particularly when used as trim, and not as a necessary closing. Buttoned rounded tabs give a designer look to an otherwise simple double-breasted suit (sketch 1); buttoned triangular tabs add interest to a swagger coat (sketch 2); and buttoned trimmed slim skirts have more dash than the same skirt untrimmed.

SUGGESTIONS



Because of the utter simplicity of Fall suits and dresses, at-home clothes such as housecoats and negligees will be softer and more feminine. When making your Fall hostess coat of Botany flannel, trim the neckline and sleeves with the exact shade of lace or pleated satin — and do wear matching slippers.



Or, suggestion No. 2, try a harmonizing color scheme on a very simple entertaining coat by having the top to the hips of one tone, a second tone to the knees, and the third tone for the lower portion.

An interesting method would be to fashion this robe from the three predominant colors in your living room: the rug, the walls and the sofa.

'BOTANY' Sewing Briefs

Now is the time to start your Fall sewing. This year decide to keep the resolution you've made so often before:—*a planned wardrobe.* Select one of Botany's[†] new glowing Hearthtones, such as Cedar Green, Poker Red, Ember Grey or Firewood Brown, and build your wardrobe around it.

Beginning this month, Botany will keep you posted on the latest trends in Fashion, and the newest in home-sewing tricks.

Color Line-up

Try costume contrasts in *one color.* As many as five tones of the same color used in one outfit can be beautifully contrived. When tones are used well, the result has subtle nuances, and denotes a woman wise in the ways of fashion.

Browns are high in importance. All shades from the palest fawn down thru sunny yellows, warm amber, coffee tones, and finally deepest earth brown can be knowingly used together. For example: Botany's Marchan in Firewood Brown for the suit, a blouse of warm yellow, shoes and bag the amber of good polished leather, a chic hat in cafe au lait, and fawn-colored doeskin gloves.

Poker Red is wonderfully flattering. This full-bodied color is ideal for Fall suits and dresses. Try wearing a Poker Red flannel coat over any other Hearthtone for your full share of cool-weather compliments.

Ember Grey is another versatile color that can be teamed with both lighter and darker tones for a monochromatic effect. Or wear it with Winter Navy accessories and grey fur for great elegance.

Suggestions

Give a custom look to each costume by purchasing slightly more Botany wool fabric than your pattern requires. By making a removable band, a feather-type fancy, or a flower, your hat becomes part of your outfit. A handbag too, seamed of matching fabric is so simple to make, and so very smart.

Next Month, a Line-up of Styles and Silhouettes. Watch for it.

Work right front to correspond, reversing shaping.

SLEEVES:

With #2 needles, cast on 50 (54, 58) sts. K 2, P 2 in ribbing for 1 inch. Change to #4 needles and work as follows: K 12 (14, 16) sts., work next 26 sts. in pattern, K remaining 12 (14, 16) sts. Continue working, keeping center 26 sts. in pattern, increasing 1 st. on each side every inch until sleeve measures 16½ (17, 17½) inches from start or desired sleeve length. 80 (84, 90) sts. Bind off 7 sts. at the beginning of the next 2 rows. Decrease 1 st. at the beginning and end of every other row until 46 sts. remain. Bind off 3 sts. at the beginning of the next 6 rows. Bind off remaining sts.

FINISHING:

Weave side, shoulder, and sleeve seams. Sew sleeves in place. Work 2 rows s.c. along front edges.

NECK BAND:

With #2 needles, pick up 92 (92, 96) sts. around neck, K 2, P 2 in ribbing for 1 inch. Bind off loosely in ribbing. Face front edges with grosgrain ribbon. Have buttonholes machine made. Sew buttons in place.

HINT OF THE MONTH

IMPORTANCE OF STITCH GAUGE —

Stitch gauge is the number of stitches per inch knit with specified size needles. Take two different size needles and two different yarns and make a swatch — using the same directions, you will then see the vast difference, and how important it is to pay particular attention to directions given on guage.

HINT OF THE MONTH

In crocheting, count each row across and see that you have same number of stitches in order to keep ends even. When you turn, remember—Ch. 1 stands for 1 s.c., Ch. 2 stands for 1 d.c., ch. 3 stands for 1 tr. c. Watch that you do not insert needle in same stitch as ch.

Weave side, shoulder and sleeve seams. Sew sleeves in place. Crochet 2 rows of s.c. around neck and back opening. On 2nd row make 2 buttonloops on back opening. Sew buttons in place.

STOLE INSERT:

Cast on 120 sts. Purl 1 row. Work in pattern as follows:

Row 1: K 1, *K 2 tog., yo, K 2 tog., K 2 tog., yo, K 2 tog., repeat from * across row end K 1.

Row 2: K 1, *P 1, inc. 1 st. in yo, P 2 inc. 1 st. in yo, P 1 repeat from * across end K 1.

Row 3: Knit.

Row 4: K 1, purl to last st., end K 1.

Row 5: K 3, repeat between * of row 1 end K 3.

Row 6: K 1, P 3, * inc. 1 st. in yo, P 2, inc. 1 st. in yo, P 2, repeat between * across, end P 3, K 1.

Row 7: Knit.

Row 8: K 1, purl to last st., end K 1.

Repeat these 8 rows for pattern until piece measures 4½ inches from start. On next right side work across 48 sts. place on holder, bind off center 24 sts. work across remaining 48 sts. Decrease 1 st. at center every other row until all sts. are gone. Tie in yarn to other side, and work to correspond.

FINISHING:

Crochet 2 rows s.c. around entire insert, working 3 s.c. in one st. as you turn corners.

STOLE TASSELS:

(Make 16 tassels)

Wind 28 strands over a 3 inch cardboard, cut one end, tie in center. then tie about ¾ inch down from top. Tie 8 tassels evenly spaced on each side of stole.

SKIRT:

All seams to be stitched ½″ in from edge.

The size of the skirt is determined by the waist measure of the wearer. From there on follow chart:

Measure waist, add one inch for seam allowances.

Fold darts 'D' as indicated. Press these darts sharp — do not stitch. Make darts 'F' and stitch on inside. Press sharp. Lay in inverted pleats 'E'. Allow them to remain unpressed until skirt is completed. Lay in inverted pleats 'G'. Allow them to remain unpressed until skirt is completed. Cut 4″ waistband — fold along center. Cut waistband 3″ longer than waist measure. Fold waistband over top of skirt. Turn seam allowance, baste and top stitch. Insert slide fastener in center back opening.

HEM:

Try on skirt, adjust length and turn up hem.

STOLE:

Make rolled hem on all sides. Sew knitted inserts in place.

BAG:

Lay pieces of bag material on felt and pin, then cut. Sew lining together and sew flannel together, two separate pieces. Press all seams then place lining inside of bag. Turn flannel in ½ inch and stitch around edges, trim excess flannel. Sew large snapper on flap of bag.

Touch Knitting for Television Sitting

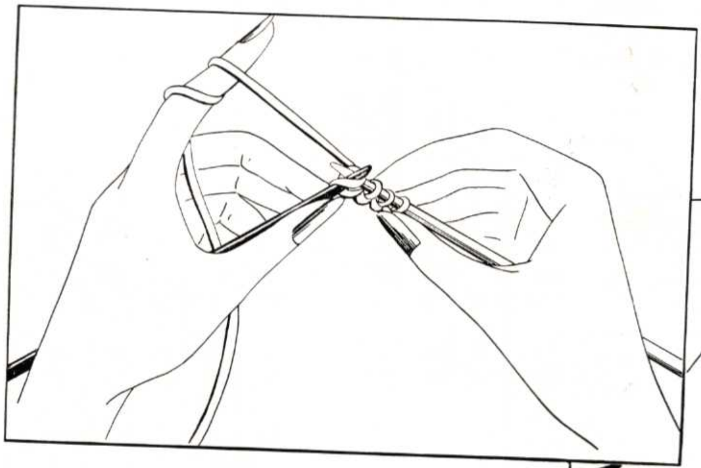
Dear Members:

You are all familiar with the "touch" system of typing that experienced typists use. This system enables them to do their typing rapidly without looking at the keyboard.

As a result, we are devoting this and the next two issues of the "Model-of-the-Month" to Touch Knitting . . . a system of knitting whereby you don't have to look down at your work. Yes . . . it can be done. You no longer have to put aside your knitting projects while looking at television, the movies or your favorite sports. You can continue this constructive pastime and at the same time watch your favorite programs if you follow the simple diagrams of knitting and purling we have prepared for you.

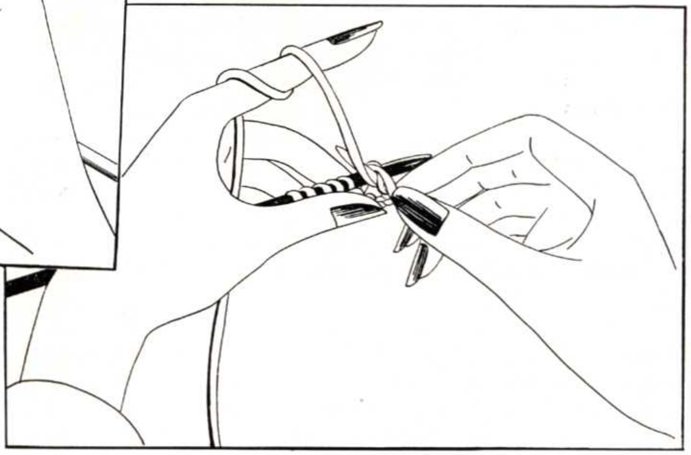
You will note that Touch Knitting does not require throwing the thread over the needle. Touch Knitting, with a little practice, will enable you to work without looking down at your hands. All the designs are simple yet smart. Stockinette stitch is the Television Stitch.

As a further step for Television Knitting we will have simplified knitting directions in our next issue of the "Model-of-the-Month".



TELEVISION KNITTING

Hold needle with cast on sts. in your left hand. With yarn in back of work, wind ball end of yarn twice around index finger of left hand. Insert right needle from front to back of st., draw ball end of yarn through st. and slip to right needle.



TELEVISION PURLING

Hold needle with cast on sts. in your left hand. With yarn in front of work, wind ball end of yarn twice around index finger of left hand. Insert right needle through front of st., wind ball end of yarn once around right needle and draw through st. backward. Slip to right needle.

Joining Yarns

If possible, always join new ball of yarn at end of row. When joining in work, leave an end about four inches long, and work next stitch from new ball of yarn, also leaving a four inch end. After working one inch more, tie these two ends in a square knot and run ends in on wrong side for one inch.

HINT OF THE MONTH

To Increase a St.:

Knit (or purl) 1 st., but do not slip the st. from left hand needle; knit (or purl) in back thread of same st., then slip st. from left hand needle.

To Decrease a St.:

1 — Knit (or purl) 2 sts. tog., by inserting right needle into 2 sts. at a time instead of one. This method of decreasing slants from left to right.

2 — "Slip, k and pass" — means to slip 1 st., k 1 and pass the slipped st. over the knitted st. This method of decreasing slants from right to left.

The Mill-Tested Wool Wash

The ideal wool-wash for the exquisite knitted garments which you have made for yourself since you joined the " 'Botany' Model of the Month Club." "Botany" Brand Dunk washes six times faster than soap. All you do is dunk your garment and squeeze it from 7 to 14 times. You don't have to rub. Then rinse it once and it's clean and fresh as when you first made it. "Botany" Brand Dunk will make your knitted garments last longer. Use a heaping tablespoon of "Botany" Brand Dunk for each gallon of water. Write us if you can't locate a dealer.

HINT OF THE MONTH

Picking Up Dropped Stitches:

Always pick up dropped stitches in stockinette stitch on right side of work. Using a hook, insert hook through dropped stitch, draw yarn of row above through loop forming new loop.

Work in this manner until all stitches are picked up being careful not to twist stitches. In ribbing, pick up dropped purl stitch on reverse side of work. In garter stitch pick up stitches alternately from front.

SILHOUETTE LINE-UP

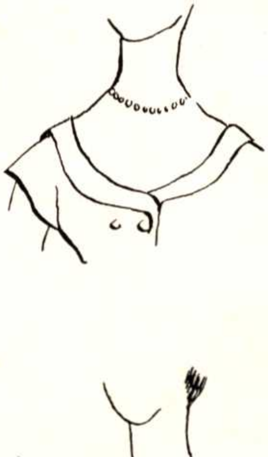
The silhouette highlight for fall is the "asymmetric" look . . . wherein one side of the dress differs from the other yet maintains a happy balance of line. Probably no one style is more flattering to almost every woman. There are so many ways that his look is achieved:

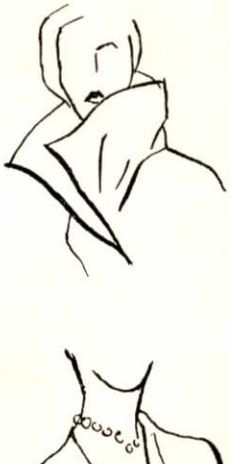
a. Buttons diagonally down back.

b. A closure starting high on the right shoulder and veering sharply toward the left hip.

c. Slanting drapery, starting either at the waist or hip, and ending at the hemline or slightly lower.

This style is a joy for you who are 5′ 5″ or under, but should be worn cautiously by your taller sister, as any vertical interest increases the illusion of height.

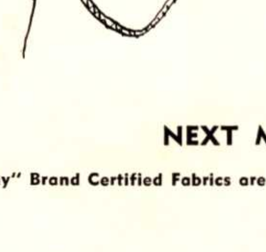


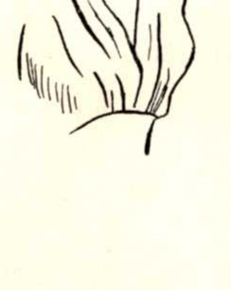


Skirts are slowly shortening, but longer panels at sides or back made the newer lengths barely noticeable.

Collars in every size and shape are a "must" for Fall. The upstanding types particularly, act as a lovely frame for your face, especially since the popularity of the short hair-do is continuing. Even where the decolletage is low, "cuff" collars are frequently seen.

Do have at least one dress with a flattering plunge or portrait neckline. Probably no other fashion note adds so much spice to an otherwise simple and conservative wardrobe.





SUGGESTION

For you who are planning "Back-to-School" wardrobes, don't overlook Botany's colorful Clan Tartans. These really authentic plaids seam so easily into fashionable dresses and suits for the younger set. Do complete the outfit with a perky plaid beret or calot of your own making.

HINTS TO *Knitters*

"BOTANY"
BRAND
NO-DYE-LOT
YARNS
REG. U.S. PAT. OFF.

EVERY knitter has known the thrill of having her non-knitting friends enviously admire her handiwork. Because your efforts are sure to be subjected to the close scrutiny of other women, we have jotted down a few hints to help you to successfully knit a professional-looking garment. This type garment always commands a high retail price.

SELECT LIVELY WOOL

First, be very fussy in the choice of your yarn because your most painstaking efforts can be ruined if your sweater will not stand up under frequent washing. "Botany" Brand yarns are Top-Dyed, French Combed and French Spun, which means they will retain their softness, elasticity and fibre strength for a longer period.

NEEDLES

Use the size knitting needles in the Botany instructions. Your knitted garment will retain the lovely softness of the yarn in the skein. It will also remain soft after repeated washings, since there is room for the wool to expand and fill in, rather than "felt" as it is apt to do if knitted too tightly.

PUT A LABEL IN YOUR SWEATER

With each purchase of "Botany" Brand yarns you will receive a silk woven "Botany" label which states that the garment has been "personally knit" by you. Nothing could be more professional-looking.

STITCH GAUGE

The importance of your "STITCH GAUGE" cannot be over-emphasized. In order to have your garment accurately sized you must obtain the "stitch gauge" specified in the instructions. Before you start your garment knit a swatch of the pattern you are planning to use in your garment and check this swatch with the stitch gauge given in the instructions.

To make this swatch cast on 25 stitches, using the size needle suggested in the instructions. Work in pattern for approximately 3 inches and then bind off all stitches. Block this swatch. Lay a ruler across the center of the swatch and mark off one inch with straight pins. *Be accurate in this measurement*. Now count the number of stitches between the two pins. This is *your* "STITCH GAUGE."

If you find there are *more* stitches to one inch than that specified in the instructions, make another swatch using a *larger* needle and check this swatch.

If you find there are *less* stitches to one inch than that specified in the instructions, make another swatch using a *smaller* needle and check this swatch.

Experiment with needles until you have found the proper needle to make *your* "stitch gauge" accurate.

PICK A YARN YOU CAN ALWAYS MATCH

Make sure the yarn you select can be matched at any time. This is very important because too frequently women find themselves half-way through a garment and unable to reorder the same color yarn to complete the garment. "Botany" Brand yarns have no dye lots. Standard colors never vary because "Botany" Brand yarns are Top-Dyed; that is, the raw wool or "top" is dyed before the wool is spun into skeins. By blending this "top" much as an artist mixes colors on his palette, "Botany" obtains a consistency of color impossible to achieve by the ordinary dye lot method. To further check on each color, a sample knitted swatch is retained at the mill and as each color comes through, it is knitted to the original swatch so that even the slightest color difference is immediately adjusted.

IMPORTANCE OF DETAILS

If you make a mistake while knitting, do not take an indifferent attitude. Rip your work and correct it. Mistakes spoil your pleasure in the finished garment.

Join seams carefully so that your garment will have that well-finished look.

HOW TO LAUNDER A SWEATER

Before laundering your sweater, make a pencil tracing on a flat piece of wrapping paper. For washing, use a heaping tablespoonful of "Botany" Brand Dunk for each gallon of tepid water. Dip the garment and squeeze from 7 to 14 times, depending on the amount of soil. *Do not scrub or rub*. Rinse once in cool water. Dry carefully, roll the sweater in a Turkish towel to dry, then use your pencil outline as a guide for shaping.

("Botany" Brand Dunk washes clean in hard or soft water — tones up colors.)

Interchangeable Yarns — Many times you see a sweater which you like, but it does not specify the type of yarn you have selected.

Instructions for "Botany" models may be used interchangeably as follows: Any instructions which specify the use of "Botany" Saxatones may also be followed when using "Botany" Aquatones or Terratones. If you wish to use "Botany" Gilgora to make any garment which calls for "Botany" Saxatones, Aquatones, or Terratones, use No. 5 needles in place of the No. 4 needles used with the other yarns.

The reverse is true if you wish to use "Botany" Saxatones, Aquatones, or Terratones in place of Gilgora. Simply substitute a No. 4 needle for the No. 5 needle suggested for knitting Gilgora.

Behind the Scenes

IN THE MANUFACTURE OF *"BOTANY" BRAND NO-DYE-LOT YARNS

To really understand how "Botany" eliminates dye-lots, it is necessary to know something of the manufacture of yarns.

After raw wool has been thoroughly washed it is fed into huge carding machines. These machines comb the wool so that it emerges in a single fluffy strand four or five inches wide, which is then wound on spools the size of a trap drum. The wool in this stage is known as "top."

These spools are then neatly wrapped in canvas bags and dropped into boiling vats where they are left for four hours. The center of the spool is hollow with numerous perforations so that the dye can permeate into the very center of the wool.

The Top after dyeing is known as "dyed top."

The "dyed top," if correctly matched, is then spun into yarn. Should color corrections be necessary for perfect matching, the dyed wool fibres are reblended by a combing process until the desired match has been achieved. This process makes for uniformity in color—always.

Skein dyeing is done in just the opposite way. The raw wool is made into yarn and then dyed. This process does NOT make for uniformity of color, and that is the reason skein dyed yarns are necessarily sold under dye lot numbers.

The color accuracy of this "top" dyeing and blending process enables "Botany" to guarantee perfect color match, on all "Botany" Brand No-Dye-Lot Yarns, regardless of time.
